Course Title/ Course #: English Language Arts 8  
 Start day: 1  
 Meetings: 180 days

**Course Description**

At the eighth-grade level, interviewing skills will be added to the students' repertoire of oral language skills. Students will learn to apply interviewing techniques including preparation for and evaluation of the process of interviewing. Students will analyze, develop, and produce creative and informational media messages. Students will apply knowledge of appropriate reference material to produce a research product including the collection and organization of information from multiple online, print, and media sources. They will extend skills in the evaluation of sources and the use of technology to research, organize, evaluate, and communicate information. In addition, they will continue to cite sources and avoid plagiarism by using Modern Language Association (MLA) or American Psychological Association (APA) style guidelines. Students will apply knowledge of word origins, analogies, and figurative language to understand unfamiliar or new words. They will continue to develop appreciation of literature through the study of literary elements in classic and contemporary selections. They will describe themes and inferred main ideas, interpret cause-effect relationships, and draw conclusions from a variety of literary and informational selections. **Students will apply critical reading and reasoning skills across the content areas, including history and social science, science, and mathematics and use writing as a tool for learning academic concepts.** At the eighth-grade level, students will plan, draft, revise, and edit narratives, expository, persuasive, and informational pieces with attention to composition and written expression continuing the process of becoming independent with sentence formation, usage, mechanics and conventions of language. They will use available and appropriate technology. (From VDOE Curriculum Framework, 2010)

At the eighth-grade level, students will apply knowledge of word origins, analogies, and figurative language to understand unfamiliar or new words encountered in authentic texts. They will continue to develop appreciation of literature through the study of literary elements in classic and contemporary selections. They will describe themes and inferred main ideas, interpret cause-effect relationships, and draw conclusions from a variety of literary and informational selections. Students will build on the foundations for literacy developed in the previous grades. When selecting texts, teachers will consider appropriateness of subject and theme as well as text complexity. Students will apply critical reading and reasoning skills across the content areas, including history and social science, science, and mathematics.

- 8.4 The student will apply knowledge of word origins, analogies, and figurative language to extend vocabulary development within authentic texts.**
- Identify and analyze an author’s use of figurative language.**
  - Use context, structure, and connotations to determine meaning and differentiate among multiple meanings of words and phrases.**
  - Use roots, affixes, cognates, synonyms, and antonyms to determine the meaning of unfamiliar words and technical vocabulary.**
  - Use dictionaries, thesauruses, and glossaries to determine definition, pronunciation, etymology, spelling, and usage of words.**
  - Discriminate between connotative and denotative meanings and interpret the connotation.**
  - Extend general and specialized vocabulary through speaking, listening, reading, and writing.**
