Mix-Pair-Share

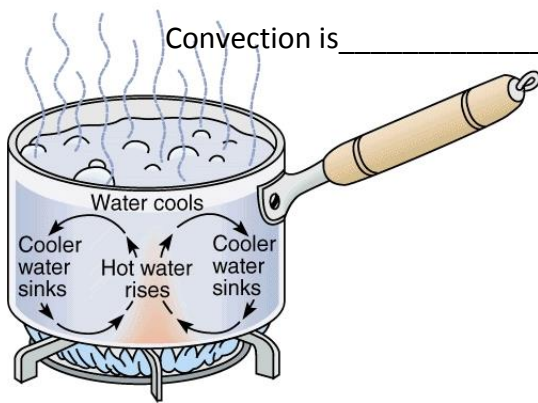

Air is What, Now!?!?

1. Is air a fluid or a gas? Explain what you think.

2. Now, wait a second! Air can actually act like a fluid, sometimes. It's a fact! Try to think of an example of air acting more like a fluid than a gas. Write about it here:

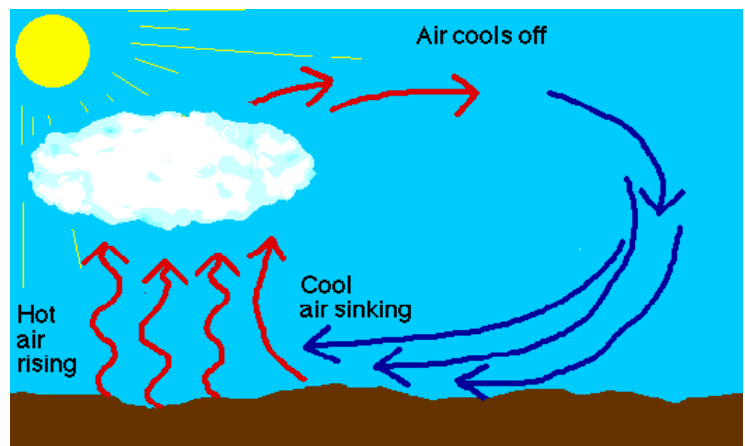

3. Do you remember learning about oceans and the atmosphere in 3rd grade?! It was such a fun year in science class! What do you remember about what heating the atmosphere (or water) does to the motion of the atmosphere and water? Write about it here:

4. *****CHALLENGE**: Define **convection** and circle the picture(s) at the bottom that is SHOWING convection.
